

The Missed Call Calculator

What unanswered phones are costing your business every month.

Most business owners know they miss calls. Few know what it actually costs them.

This takes 5 minutes. The number you get will probably surprise you.

STEP 1 — YOUR DAILY CALL VOLUME

Estimate how many inbound calls your business receives on an average day:

Total calls received per day: _____

Calls you actually answer per day: _____

Missed calls per day (line 1 minus line 2): _____

STEP 2 — YOUR AVERAGE JOB VALUE

What does an average customer spend with you? Use these examples as a guide:

Auto Shop / Repair \$150 – \$800 per repair order

Restaurant / Bar \$25 – \$80 per table

Nail Salon / Beauty \$45 – \$120 per visit

Self Storage \$80 – \$200 per month

My average job / transaction value: \$ _____

STEP 3 — RUN THE NUMBERS

Missed calls/day **X** Avg job value **X** 22 work days
_____ calls \$ _____ per month

YOUR MONTHLY MISSED REVENUE: \$ _____

** 85% of callers who reach voicemail never call back. Your actual revenue loss is likely higher.*

Want to stop losing that revenue?
